Echoes of History. "Echoes of History" is a feature that lets the player's experience in the game be seen as a story that connect past and present. When the player makes a certain action, the game will show which memories that character has had and how they interact with each other. For instance, when the player enters the area of the Nine Dragon Temple, past memories related to the legendary nine dragons will be revealed. When the player leads a unit to fight against monsters, past memories related to that unit will also be revealed. *The memories are based on the "The Legend of Tarnished" quest that the player has undertaken.

Asan the Great's Avatar. The Tarnished has called forth Asan the Great, a legendary adventurer and combatant under the Berserker category. Beneath the robes of his order and status, Asan enjoys an air of mystery and elegance, embodying his character's creed of "Lead, Rule, and Display". We created

Asan the Great as a new category of adventurer who will have an interesting role in the game, as well as a feature that lets the player customize his appearance.
